PROFILE

Senior Product Designer with 5+ years of experience, skilled in startup-mode work within enterprise scale. Proficient in collaborating with cross-functional teams to deliver products that align with user needs and business objectives, with a strong emphasis on AI adoption and code-first workflows.

WORK EXPERIENCE

Senior Product Designer

Monday.com 2025-Present

- Part of RevAI, an internal startup within monday.com focused on AI-powered revenue tooling – built the company's first AI-driven sales agent.
- Early advocate for code-first design workflows, collaborating directly with engineers through PRs and in-code fixes.
- Delivered measurable impact across products: ~95% increase in product adoption, 30% reduction in decision-making time, and revenue growth exceeding \$4M.

Product Designer

Walkme 2024-2025

- Owned the end-to-end design for the 'Workstation' product, continuously optimizing user flows and driving the strategic creation of a new mini-app version.

Product Designer

Matrix 2022-2024

- Designed and launched an insurance platform and a complex agent dashboard optimized for policy pricing.
- Mentored a design team, implementing structured feedback processes and guiding effective stakeholder collaboration.

UX Research- Lecturer Assistant

Tel Aviv-Yafo Academic College 2021-2022

- Assisted lead lecturer in planning and delivering coursework on UX research methodologies, including qualitative and quantitative research techniques.

Product Designer

xBiDa 2020-2021

- Created a new AI-driven system for superstores managing which improved efficiency and decision-making by provided business insights.
